Welcome to D Zambelis

D Zambelis have been going strong within the stone industry since 1996 and is still expanding.

Demetris, co-founder of D Zambelis is an experienced stone mason, who has worked within the industry for many years. He has an outstanding amount of knowledge working with different materials and can offer sound advice wherever needed. Stella, also co-founder, is in the office during the week, so if you have any queries about a product, she will be on hand to help you with your problem.

We sell a wide selection of products, including diamond cutting, grinding & drilling tools, polishing diamond & abrasive tools, chemicals, glues & waxes, power tools, stone handling tools and CNC tools. We have one of the largest stocks of core drills for stone in the country from 6mm to 120mm.

We sell and deliver to anywhere in the UK and Ireland, and can guarantee, for UK customers, that your products will be delivered within the next day.

In 2008 we expanded into machinery, becoming the UK agent for:

Achill Srl (Secondary saw and machinery).

Dal Forno- Lifting and Handling Equipment

Donatoni Costruzioni Meccaniche - pioneer in the field of stone processing.

Italmecc - Environmental Protection machinery - Water Recycling and Air Purification.

Terzago Macchine - Primary and Secondary saws

O.M.G.M Bellani - Edge polishing machines

Wires Engineering -Single, Multi and profiling Wire Saws

SLAB TROLLEY CLAMP

Designed with self-locking jaws for manoeuvring stone slabs around the factory, or on the work site. The rubberized jaw and base protect slabs against chipping and scratching while transporting. The self-locking jaws' clamping strength is proportional to the weight of the slab, therefore the heavier the slab, the larger the clamping force. The trolley has 14" x 4" (350mm x 100mm) diameter pressurized wheels and a 5" (125mm) heavy duty swivel caster that increases stability and flexibility in narrow and on rough surfaces.

Grip range: 3/8" - 4" (10 - 100mm) | Loading capacity : 880 lbs (400kgs)
Channel length: 23 3/4" (600mm) | Channel width: 4 1/3" (9.5Mm)

Product Code: 202

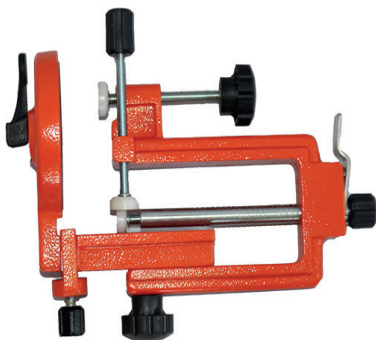

CARRY CLAMPS

They are designed for safely lifting and transporting stone slabs without using a forklift truck. The fully vulcanized rubber pads provide added grip and prevent damage to the slabs. The weight of the slab exerts a sufficient clamping force for such a simple lifting device.

Grip range 0-40mm | dimensions : 240 x 120 x 285 mm
Lifting capacity per pair 200 kg

Product Code: 203

90° CLAMP
